The University uses employee finge benefit also to recover the actual cost of employee benefits from sponsored funding sources. We negatiate these rates with the Federal Government and apply the microsponsored projects only. The rate correct is to match the appropriate group of employees with the benefits provided to that group. While constitutional basis, an employee may not participate in all benefits, the use of benefit rates serves to apply an average percentage to all employees within the same group. Sime these rates are applied to University grants and contracts, they are subject to annual and they the Federal Government.

THIS TREATMENT OF FRINCE BENEFITS IS SPECIFIC TO SPONSORED PROFECTS ONLY. IF YOU HAVE QUESTIONS ABOUT THIS, PLEASE CONTACT OSPORDIRECT PEOPLE TO CONTACT THEIR OSPIEAM
